

**Bakery and Pizza  
Equipment Catalog  
2016**

*Dear Customer,*

*Since 1950, LINEA DORI 3000 SRL is a reference for the designing and realization of wooden work tools for bakeries and pizzerias.*

*Our products are produced entirely with wood not chemically treated, and the handling process is carried out without using glues or any other product that could be harmful in contact with food. The Dori production is granted by its registered authenticity trade mark, heat-branded on each produced item.*

## **WOOD**

### **THE BEST MATERIAL FOR CRAFTING WOODEN PEELS FOR OVEN USE AND BEECH SHOWING BOARDS FOR BAKERIES AND PIZZERIAS.**

According to bakery and pastry technical manuals, wooden showing tables are the best solution for the conservation of final foods like bread, pizza, sweets etc. thanks to their high degree of hygroscopicity (moisture absorbing capacity) and their inalterability from the exposure to air and light.

Wood that comes into contact with food products doesn't change their composition, provided that is clean periodically and adequately, in line with current rules in the area of hygiene of food (law 283/62, DPR 327/80).

### **Warranty and declaration of conformity**

We declare that wooden beech showing tables for 'pizza alla pala' are treated with chemical treatment for food use, so they can come into contact with pizza, bread and other food products.

For our products we release the warranty certificate and the declaration of conformity.

# Where to find us

## Roma,

Via di Vigna Girelli 48 b

Uscita 31 del Grande Raccordo Anulare  
(Via della Magliana)

# BAKERY EQUIPMENT

- Steamed beech peel
